Parents, Carers and all Car Park Users

We are very fortunate to have a car park of our own. Much work has gone into it by our Business Manager, Mrs Adams, to ensure we can use it as a Community Resource.

Clearly there are times of each and every working day when the car park is particularly busy: dropping off time in the morning and picking up time at the end of the College day. A big thank you to all of you who use the car park sensibly and safely. It is no mean feat to have so many pedestrians, buses and cars all in the same place at the same time.

As a simple reminder I would like to draw your attention to a few basic points, all of which I am sure you will recognise as common sense.

Car Users

- Do drive at a minimum speed taking into account other cars and any pedestrians, particularly children.
- Do use the correct entrance and exit points as there is a clear one way system.
- Take particular care on entering and exiting and when there is a break in the pavement and pedestrians may still be crossing.

Pedestrians

- There are clear specific walkways and paths, including a crossing point. Please use these and do not cut across the car parks. Keep to the paths.
- Do use your common sense and show due care and awareness in terms of cars, coaches and motorbikes.
